FRONT PAGE NEWS, “Want a Train? Here, take mine.

The Ridge Live Steamers are the delighted recipients of Stan Wells’ donation of his entire Santa Fe “War Bonnet” train. Complete with two car carriers, two “T-bar” riding cars, Engineer’s riding car, Conductor’s riding car and Caboose. This train will be used exclusively for conducting visitors on a tour of the railroad and in card order sessions. The engine is a GE Dash 8 – 40GW built by Duncan Herring. Because of some unique features of the engine engineers will need to be “checked out” in the proper operation of the engine. In addition the train came complete with storage/transportation racks, a portable hydraulic lift, all the track and switches. The Ridge Live Steamers are indebted to Stan for this fantastic donation.

Ridge held its second Ops Session of the year on January 21st. Good weather was with us on Saturday but wind and threat of rain curtailed operations on Sunday.

The Saturday session was well attended and we fielded 24 freight runs. We had 2 passenger trains running the schedule with their set out and pick up of REA cars. We had 10 trains running at the same time including transfer/interchange runs. Switching was done in Yeehaw, Pine Level, Hays Hill, Pine Level Ridgeville/Tiley and Bowen Branch.

Our next session is scheduled for March 17 - 18. Join us!!
